CATALOG FOR FROZEN FOODS

Chinese food

Not just delicious, but safe and secure as well

Aspiring to contribute to rich dietary lives with SHINYEI brand foods

We believe that the food sector has undergone and will continue to undergo diversification. We have developed a system that can accommodate the requests of clients from a small-lot basis. Moreover, our unwillingness to accept the status quo drives us to make continuous improvements and also develop new products. By harnessing expertise cultivated over many years, we strive to enable SHINYEI brand foodstuffs to contribute as much as possible to dietary lives that are rich, safe and secure.

We procure all sorts of frozen vegetables, boiled vegetables, cooked frozen foods, frozen marine products and other processed ingredients such as peanuts and nuts kept at room temperature from around the world. Our product lineup and grading system are undergoing diversification. To improve quality management for these products, we select only items that meet our own standards upon being investigated and analyzed by specialists at the R&D Center, which was established in the spring of 2009. SHINYEI offers only products that have been selected for being not just delicious, but safe and secure as well. We are committed to operating in a manner that prioritizes this approach above all other considerations.

How to look product label

Name of product	Style	Origin
